Gerd Holl

LinkedIn positioning write-up

International Executive · Managing Director · Regional Leadership · Executive Advisor

CHALLENGE

An active international MD / regional leadership career needed LinkedIn positioning that preserved current employment accuracy while opening Executive Advisory and Board visibility.

ASSESSMENT

Headline and About risked either understating international P&L scale or implying an employment change. Advisory ambition belonged in Headline and About — not as a fabricated current Experience entry.

APPROACH

Refined LinkedIn headline, About, experience language, pinned skills and banner direction for international executive search visibility (DACH · CEE · EMEA), keeping employment chronology intact and holding advisory/Board ambition in narrative rather than inventing a role.

OUTCOME

Deliverables: LinkedIn positioning package (headline, About, experience refinements, skills architecture and implementation notes). No new role or board seat is claimed as a result.

This document describes positioning deliverables produced by VisionSpark Advisors (Joel Facco). It does not claim interviews, placements, Board appointments or employment outcomes. Career advisory remains separate from recruitment consideration.
