Harold M. Wodlinger, Ph.D.

Board-ready CV & governance narrative

Independent Board Director · Chairman · MedTech Executive

CHALLENGE

A deep MedTech operating and venture record needed to read clearly as Independent Director and Chair material — not only as an inventor or operator CV.

ASSESSMENT

Governance weight, board chairmanships, corporate exits, due diligence counsel and commercialization leadership were present in the career, but the narrative had to elevate board stewardship and shareholder-value judgment.

APPROACH

Rebuilt the materials around Independent Board Director and Chairman positioning: executive profile, key accomplishments, board and governance leadership, strategic advisory, academic contribution and intellectual property — ordered for nomination-committee and search reading.

OUTCOME

Deliverables: Board-ready executive CV and Independent Director / MedTech governance narrative. No appointment or interview outcome is claimed by the positioning work itself.

This document describes positioning deliverables produced by VisionSpark Advisors (Joel Facco). It does not claim interviews, placements, Board appointments or employment outcomes. Career advisory remains separate from recruitment consideration.
